→ Scale → IPO/Exit

---

Services: Entity Setup · Finance Ops · CFO  
Advisory · FP&A & BPS · Multi-Entity ·  
Treasury & HR · Audit Ready · Pre-IPO Prep

## Why DFG? Asia's Business Expansion Specialist

Built for the way companies actually grow – from incorporation to fundraising and IPO. DFG Advisory was built for business growth, not just compliance. We support founders, CFOs, and regional teams who need more than a filing service – they need a partner who understands the full journey from first entity to public listing.

## DFG Advisory

DFG Advisory supports businesses from the moment they establish their first Singapore entity through to public listings and exit events. We don't just file documents – we build the financial infrastructure, governance frameworks, and reporting capabilities that regulators, investors, and boards expect at every stage of growth.

### From Incorporation to IPO – What That Actually Means

## More Than Accountants — Business Process Solutions

Our BPS practice goes beyond traditional accounting. We design and implement the processes, systems, and controls that allow finance teams to scale without adding headcount. From AP/AR automation to month-end close optimisation, we build the operational backbone that growing companies need – and that institutional investors expect to see.

---

### FP&A and Business Partnering — **Our Core Strength**

Financial visibility is not a luxury — it is a growth requirement. Our FP&A and business partnering practice embeds financial intelligence into your decision-making. We deliver rolling forecasts, scenario modelling, and board-ready reporting that give leadership teams the clarity to act with confidence at every stage.

## Ownership, Not Just Advice

At DFG Advisory, we take responsibility for outcomes – not just deliverables. When we engage with a client, we become accountable for the quality of their financial operations, the accuracy of their reporting, and the readiness of their business for its next milestone. That is what separates a true business partner from a service provider. DFG Advisory Pte Ltd · Singapore
